

CHROME BROWSER – Clearing the CACHE and cookies

1. and 2. Settings
3. Security and Privacy
4. Clear browsing data
5. 7 days is most appropriate
6. Tick all boxes
7. Clear data

The image shows a Chrome browser window with the Settings page open. The address bar shows 'chrome://settings/privacy'. The left sidebar is visible, with 'Settings' and 'Security and privacy' highlighted. The main content area shows the 'Security and privacy' section, with 'Clear browsing data' highlighted. A dialog box titled 'Clear browsing data' is open, showing the 'Time range' set to 'Last 7 days' and all checkboxes for 'Browsing history', 'Cookies and other site data', and 'Cached images and files' checked. The 'Clear data' button is highlighted.
